

## Scrum Implementation

12 hours

The project management style of Scrum requires a business to work as a unified team to succeed. It will improve efficiency and quality of customer deliverables if done correctly. This course focuses on the steps and hazards of implementing Scrum within your organization. It covers the appropriate time to use Scrum and how to transition from other project management style formats, such as Waterfall and Earned Value Management, to Scrum.

**Who Should Attend:** This course is intended for people with an understanding of Scrum and a strong desire to utilize it. Management is the obvious target group, but since Scrum is an organizational team-based approach to project management, everyone project team member plays a role in its success.

**ETI Instructor Mike Letson** is a certified Six Sigma Black Belt specializing in transactional analysis for organizations ranging from city governments to manufacturing. He is known for his high energy and results driven instructional techniques. He brings a wide range of experience from military, corporate, and entrepreneurship, allowing him to relate topics directly to each participant. Mike successfully finds new ways to combine having fun while learning.
