

FAST TRACK **CNC MACHINIST** **TRAINING PROGRAM**

PROGRAM SUMMARY: This program is for candidates seeking entry-level positions in CNC manufacturing operations and a long-term career path in manufacturing.

CNC machinists use machine tools such as computer numerically controlled (CNC) lathes and mills to produce precision metal parts requiring the use of complex operations and great attention to detail. CNC machines, following a computer program, control the cutting tool speeds and feeds, as well as sequencing the tool changing process for specific operations. The CNC machinist controls their CNC machine in performing all necessary cuts to complete an operation or to create a complete part.

CNC machinists sometimes work with numerical control programmers to determine how the automated equipment will produce a part.

AUDIENCE: Candidates for entry-level positions in manufacturing.

COMMUNITY JOB SURVEY ESTIMATED HOURLY WAGES: Entry-level wage (\$12-\$14 p/h, 1-year wage (\$14-\$18 p/h), 3-year wage (\$16-\$20 p/h).

REQUIREMENTS: Basic computer skills and successful completion of ACT WorkKeys assessments in Reading for Information and Applied Mathematics at WorkKeys Level 4.

Course fees may be waived for qualified applicants including unemployed individuals or individuals working part-time. Contact your local America's Job Center of California for details: www.americasjobcenter.ca.gov or (661) 799-WORK

Advanced registration is required. Register at <http://tinyurl.com/ftcnc17-Aug>

* ALL DAY EVENT *

FRIDAY, JULY 28, 2017
UNIVERSITY CENTER
ROOM 107
9:00 AM - 4:00 PM

TO BE CONSIDERED, YOU
MUST ARRIVE AT OR BEFORE
9:00 AM!

CLASSES HELD ON
MONDAY, AUGUST 7, 2017 -
FRIDAY, SEPT 22, 2017

MONDAY TO FRIDAY
7:30 AM TO 4:30 PM
7 WEEKS • 280 HOURS

COLLEGE OF THE
CANYONS

Dr. Dianne G. Van Hook
